I02-06-002 Investigation on the Commission's own motion into the rates, operations, practices, services and facilities of Southern California Edison Company.

Summary: LATE FILED. On April 5, 2004, Marcel Hawiger, attorney of The Utility Reform Network (TURN), met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present were Robert Finkelstein, Executive Director of TURN, and James Weil of Aglet Consumer Alliance. Hawiger stated that Southern California Edison Company's (SCE) Issues Summary distributed during an ex parte meeting repeated various arguments from SCE's previous filings which have been rebutted. Hawiger and Finkelstein stated that SCE was inappropriately introducing selective data from 2003 and inappropriately attempting to collect money which it explicitly stated in testimony it was not seeking. TURN stated that it supported ALJ Wetzell's proposed decision on the issue of incentive mechanism, but supported the Cmmr. Wood's alternate on the issue of service guarantees and compensation reporting.

Summary: On April 6, 2004, Marcel Hawiger, attorney of The Utility Reform Network (TURN), met with Brian Prusnek, advisor to Cmmr. Kennedy, in San Francisco. Written materials (attached to the notice) were used. Hawiger stated that Southern California Edison Company's (SCE) Issues Summary distributed during an ex parte meeting repeated various arguments from SCE's previous filings which have been rebutted. Hawiger stated that SCE was inappropriately introducing selective data from 2003. Hawiger stated that SCE misrepresented the availability of customer deposits as a source of funds during the April 5, 2004, all-party meeting with Cmmr. Kennedy. Hawiger summarized TURN's position and data concerning customer deposits as an offset to rate base. Hawiger stated that SCE's contention about unit pole replacement costs were based on unsupported geographic classifications of Pacific Gas and Electric Company (PG&E) and SCE service territories and on erroneous interpretations of PG&E's cost data. Hawiger stated that the proposed decisions provide SCE with large attrition increases based on adopting SCE's budget-based forecast of capital additions.

4/9/04 A02-05-004 Southern California Edison Company (U 338-E), for Authority to Increase, among other things, its Authorized Revenues for Electric Service in 2003, and to Reflect that Increase in Rates.

Summary: On April 9, 2004, Mark Pocta, Program Manager of the Office of Ratepayer Advocates (ORA), met with Julie Fitch, advisor to Pres. Peevey, in San Francisco. Pocta stated that ORA supported the proposed decision (PD) of the ALJ even though they did not support the manner in which all issues were addressed. On balance, Pocta asserted that Southern California Edison Company (SCE) was treated very fairly and prevailed on many issues. Pocta stated that SCE's requests to further increase the test year revenue requirement should be rejected. Pocta emphasized that the methodology used by SCE for calculating net salvage costs is flawed and that the 5-year average to calculate information technology expenses was well supported by the record and within the PD. Pocta also explained the reasons that the PD correctly rejected SCE's request to add \$2.5 million to the SONGS Refueling Outage costs. Pocta further stated that any increased funding for distribution and transmission O&M expenses above the PD levels should be rejected. Pocta noted that SCE's request to cherry pick various test year forecasts that they did not prevail upon in the PD should be rejected. Pocta recommended that the Commission should adopt the PD.

Also present was Terry German of Livingston & Mattesich Law Corporation. Written materials (attached to the notice) were used. Rexroad and German stated that NAPG disagrees with the interpretation and application of Public Utilities Code Section 377 as set forth in the proposed decision on grounds that Kern Steam Plant is not an 'electrical generating facility' nor a 'generation asset' within the meaning of Section 377. Rexroad and German stated that the transfer of the facility should not be stayed and the determination under Section 851 should proceed without delay. NAPG indicated that, if the draft decision becomes final, without revision, the development of the site will be significantly delayed.
